

OUR WORK IS OUR SIGNATURE

AVIATION TECHNICAL SERVICES

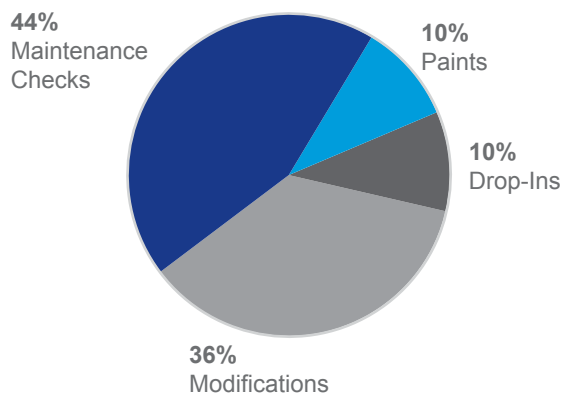

At Aviation Technical Services (ATS) you can expect a team of individuals who take pride in their work. We work as a partner with our customers to provide quality workmanship, delivery as promised, competitive pricing and a tailored operation to suit your specific requirements.

Our leadership role in the MRO industry has come through servicing thousands of aircraft and tens of thousands of components for hundreds of successful aircraft operators around the world. As we've worked with these operators, we have fine-tuned our operations, gained efficiencies, and found ways to provide the best possible value.

ATS SERVICE EXPERIENCE

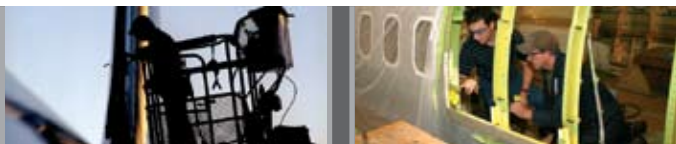

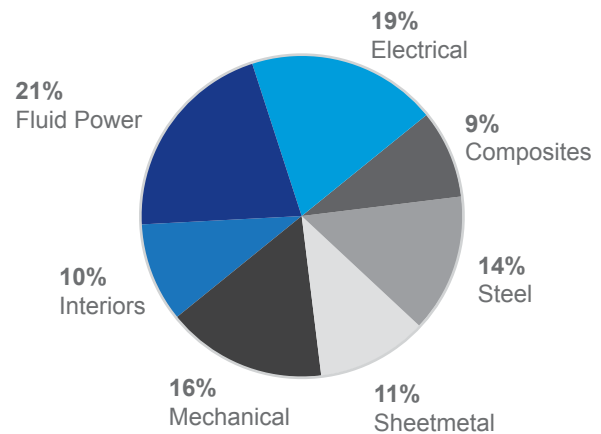

Airframe Services

Average of 443 aircraft redelivered each year

Component Repair & Overhaul Services

Average of 6,200 units redelivered each year

DEFENSE SERVICES: EXPERIENCE PERFORMANCE

As a defense procurement manager, you require exceptional performance with little risk to ensure that your aircraft will be mission ready when needed.

At ATS we continually demonstrate experience in meeting the challenges of defense contracting. We apply our best commercial practices to these unique contracts to make certain that your program is on-time and cost efficient. Our level of service and technical expertise is second to none in the MRO industry.

OUR PERFORMANCE EARNED US OUR PATCHES

PAINT

PAINT SERVICES: EXPERIENCE INDIVIDUAL CARE

As an aircraft operator, we understand that your paint requirements are as varied as the liveries you require.

At ATS we have extensive experience providing OEMs, commercial operators, and business jet owners with quality paint services. Whether you need a simple paint job, in-house design work, or paint in conjunction with maintenance or modifications; our experienced paint team will work with you to deliver the service that fits your specific needs.

DEDICATED PAINT BAY FEATURES

- Specially engineered air flow system moves air at 310,000 cfm
- State-of-the-art wastewater treatment system
- Crane rail vacuum system controls contamination
- Climate control improves paint cure time and quality
- Narrow- and wide-body capable

ENVIRONMENTAL

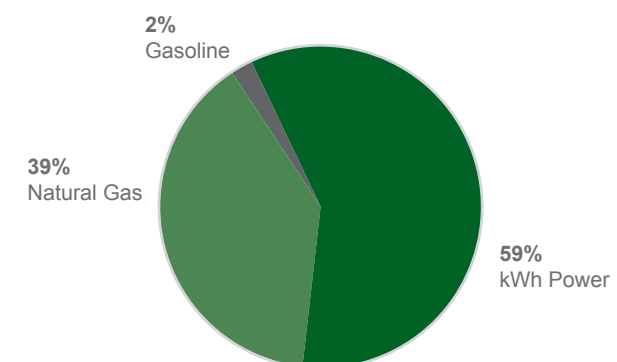

ENVIRONMENTAL INITIATIVES: EXPERIENCE EFFICIENCY

At ATS we have proven that paying attention to Reducing, Reusing, and Recycling our products results in efficiency of materials and lower costs for our customers.

Acting as an environmentally responsible organization requires commitment to a different way of thinking and the returns add up. Starting with simple recycling initiatives and moving to more capital intensive upgrades like air compressors, heating and ventilation systems and facility lighting have resulted in some impact totals that begin to make a difference.

BENEFITS FROM ENVIRONMENTAL INITIATIVES

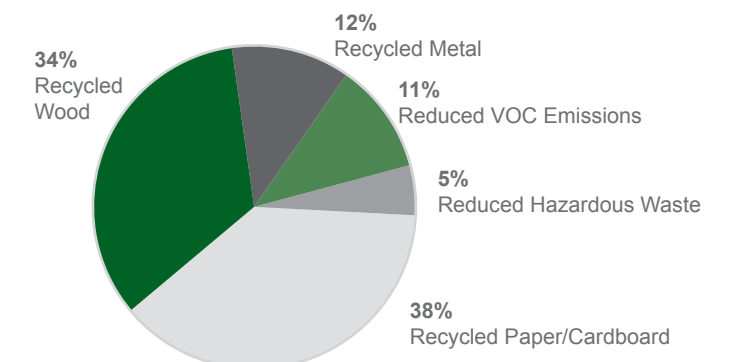

CO2 Emissions Annual Reduction: 6,500 Tons

Equivalents:

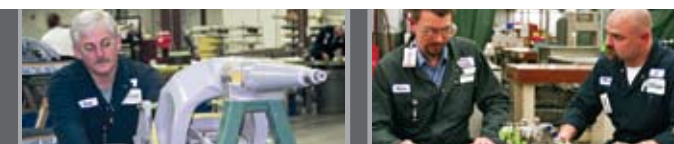

- Power for 2,000 local households
- 203 commercial flights around the earth's equator
- Drive 106 times from Seattle to New York

Hazardous & Recyclable Material Annual Reduction: 679,175 pounds

Equivalents:

- 7.6 backyard swimming pools of hazardous waste
- 934 years of power for a single TV
- 4,142 trees not used

HISTORY

Aviation Technical Services, Inc. (ATS) was founded in 1970 and is one of the longest-running maintenance, repair and overhaul (MRO) businesses in North America. From its early roots as the highly-respected TRAMCO, ATS has grown over the past four decades to a world-class operation providing a total-support MRO facility that serves industry-leading customer airlines. Through our legacy of strong leadership and a supportive community, we have grown to one-million-square-foot of facilities designed specifically for maintenance efficiency. Our continuing tradition of excellence is made possible by our employees who have dedicated themselves to providing unmatched quality, service and safety in aircraft/component maintenance, repair and overhaul.
